

24-PORTS CABLE MANAGEMENT SERVER RACK SPECIFICATION

LXj Series is an intelligent solution to accurately manage wiring and keep cables tidy inside a 600 mm deep 19" rack cabinet. It is ideal for keeping the wiring tidy and clean, which is essential for checking and replacing the connection cables. This bracket allows identification of the level, connection relationship and line direction of the wiring.

Cable organizer very useful for routing the cable on a single lane: in fact, it allows professional management of the cabling avoiding messy lines, for a quick and precise periodic technical intervention.
